

# (( sirenum ))

Sirenum helps organisations in numerous industries across multiple key processes in the staff management lifecycle.

## Escape from Spreadsheet Hell

**Challenge:** An adventure gaming outlet in highly regulated Norway was bogged down by roster challenges as it opened a second location.

**Solution:** Pairing Sirenum scheduling and MySirenum to easily handle a complex roster across multiple sites, worker types, and time slots.

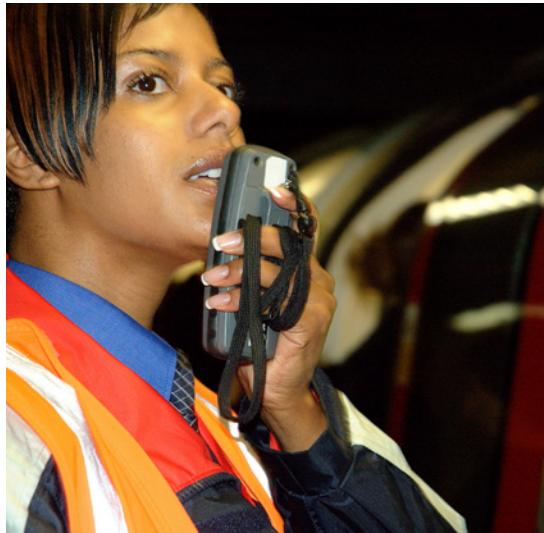

**Benefit:** The organisation no longer struggles to manage worker hours within the tight confines of Norwegian regulatory guidelines and has virtually eliminated missed shifts.

## Caring For Patients and Staff

**Challenge:** A small London care agency struggled to efficiently build a carer schedule and wanted to more accurately pay carers.

**Solution:** Using Sirenum scheduling, monitoring, and MySirenum to schedule carers, capture care history, and accurately track travel and hours worked.

**Benefit:** The agency has increased transparency to patient's loved ones and improved compliance with living wage guidelines, boosting employee engagement and satisfaction.

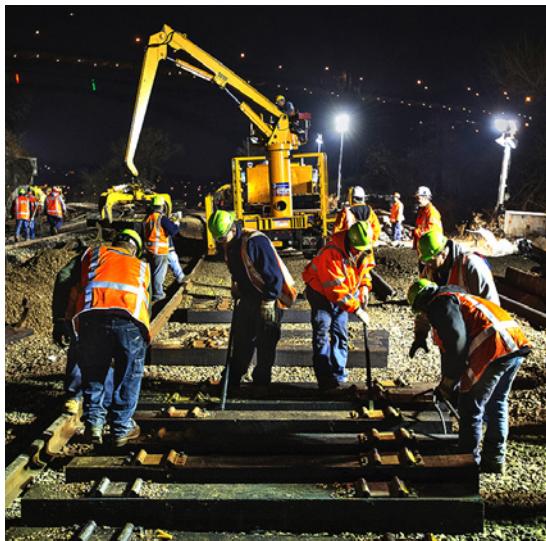

## Agency On Track for Big Growth

**Challenge:** A mid-sized UK staffing agency focused on transport couldn't meet customer requirements efficiently due to its high-turnover workforce and increasing regulation.

**Solution:** A complete staff management solution for the agency, integrating rostering, monitoring, and payroll processes with compliance throughout.

**Benefit:** The agency has cut scheduling timelines in half, while requiring 75% fewer resources dedicated to payroll processing.

## Controlling Risk on the Rails

**Challenge:** A major UK rail train operating company was grappling with health and safety guidelines at its depots.

**Solution:** Delivering Sirenum scheduling with risk and fatigue management in context and pairing it with our financial module for payroll calculation.

**Benefit:** The organisation has cut its overtime hours significantly, while setting industry standards for health and safety compliance and breaking down silos across teams.

## Mastering the Fine Art of Scheduling

**Challenge:** A global events company needed to quickly deploy and monitor 500+ low-wage staff at multiple high-profile and remote venues.

**Solution:** A compliance-led solution with both Sirenum scheduling and monitoring, with an eye on ensuring that staff were legal and personal details were accurate.

**Benefit:** The company maintained a remote control room and had no incidents of worker fraud while reporting an unprecedented 99.6+% shift coverage.

## Inspiring Business Growth

**Challenge:** A UK agency focused on the non-profit sector was spending too much time processing payroll and not enough making the world a better place.

**Solution:** Integrating Sirenum financial with accounting software ensured a simple payroll process with no double data entry.

**Benefit:** There are far fewer payroll errors and far greater transparency into staff activities, freeing management to grow the business and serve more charities.
