Easily Get Support to the People Who Need It

Streamline volunteer management

SirenumGo is the latest offering from the world's leading supplier of workforce management for the staffing industry. Built to facilitate volunteer management during this time of crisis, SirenumGo lets you easily onboard your volunteers and capture their skills and availability so you can quickly match them to your constituents' needs.

With the advent of the COVID-19 pandemic, organisations are struggling to meet the needs of their constituents without an operating facility or enough staff. Thankfully, there are large numbers of volunteers ready and willing to help.

The biggest challenge organisations now face is easily matching those volunteers to the needs of the constituents while accounting for volunteer skills and resources and prioritising those most in need. While some teams are relying on tools like email and group texting, it's clear that neither is up to the task.

With SirenumGo, in just a few clicks, you can be confident that the most vulnerable members of your community won't go without.

Benefits

- Easily onboard new volunteers via your customised SirenumGo portal

- Quickly capture volunteer availability, skills, resources, and interests

- Enable on-demand volunteering

- Receive and triage inbound requests for assistance

- Improve your ability to reach those in need

- Reduce isolation and loneliness among your constituents

"The volunteer spirit of our team and of those volunteering is an inspiration to all of us. We felt it was vital to contribute our advanced technology to the public good."

—Benjamin Rubin, CEO & Founder of Sirenum

Scheduling

Building and managing rosters is core to volunteer management, regardless of task or location. Sirenum's industry-leading scheduling engine automates roster management with embedded compliance, competency, fatigue and risk management. Say goodbye to spreadsheets. Say hello to the right volunteer in the right place at the right time. Every time.

Monitoring

Volunteer organisations need confidence that their volunteers are where they need to be. Around the clock. Good scheduling is crucial, but to deliver the best volunteering service to your constituents, you also need to monitor your volunteers and keep the recipients updated. With the increased transparency provided by Sirenum monitoring tools, you manage your teams more effectively and your recipients know what they need to know.
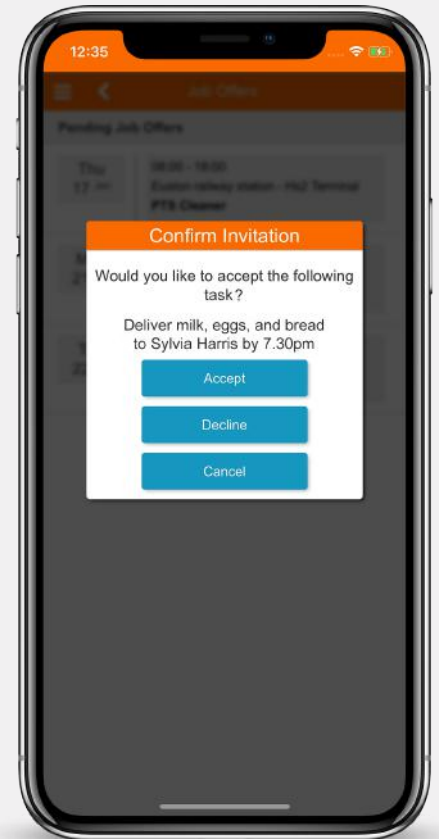

Analytics

Our analytics suite provides deep insights into all actions on the Sirenum platform, delivering a holistic, real-time picture of your volunteer force, anytime and on any device. From dashboards to scheduled reports to deep-dives, Sirenum offers the leading suite of analytics tools in the workforce management market. Built on the award-winning Salesforce® analytics platform, our reports and dashboards are 100% configurable and can be put together within minutes.

Our mobile app can transform how your volunteers connect with your organisation
