Who? Where? When? These three Ws are crucial for today's organisations. With the fastest growing part of the workforce being hourly workers, many of whom are remote or mobile, **ops teams can be buried by paperwork, whiteboards and spreadsheets** as they try to figure out the three Ws. But they want more than just the basics. They want a dynamic workforce.

Whether you're a small retail shop, a manufacturing facility, or a large global staffing agency, getting the right person with the right skills to the right place at the right time is key to ensuring efficient and effective operations. But it's not just getting the roster right at the start that matters, **it's handling the inevitable changes and communicating them** to all interested parties. That's a dynamic workforce.

To help companies across multiple sectors better answer the three Ws, Sirenum has built the most powerful and flexible scheduling engine on the market. **Regardless of your industry or geography, we can help you exceed your workforce management goals.**
