F³ by Sirenum

The Fastest Way to Place Temporary Workers

In temporary staffing, every second matters. Nowhere is that more apparent than in the placement of workers. A typical placement, even with scheduling software, can take up to 45 minutes. But with F³ by Sirenum, agencies can cut that time-to-fill by 80%, and sometimes much more. F³ combines the best tools in the industry for building, distributing, and accepting a shift.

50%
shifts assigned
within the first 5 min

86%
fill rate in only
four hours

<2min
time to approve
all of the shifts

80%
faster time-to-fill

8s
shortest time-to-fill

92%
average fill ratio

“When I received the phone call from my client, my original thought was, wow, I have to prepare for a strike in less than 48 hours. Little did I know F³ would do all the work for me.”

—Sirenum customer

How F³ Works

BUILD

Quick Create

Configure a shift, including pay and charge info, compliance requirements, location, hours, and more, in just one click.

DISTRIBUTE

Open Shift

Automatically distribute that shift to the most relevant and available workers, and receive fast confirmation.

ACCEPT

MySirenum

Our revolutionary mobile app makes sure that workers know about that shift ASAP and can accept with just a tap.
