streamlining staff management

"Sirenum saves our team 2-3 hours a day on regular processes."

—Gene Goldman
MD, ProActive Rail

"The most valuable aspect of using Sirenum is how flexible they are with meeting our specific needs."

—Jobin K. Varughese
MD, Escape Bryggen

"Sirenum has been an integral technology partner of Penrose Care... Sirenum's speed and adaptability at meeting our needs have been second to none."

—Robert Stevenson-Padron
MD, Penrose Care

who we are

Founded by people who understand both staffing and technology, Sirenum builds cloud-based solutions for staff management. Our platform streamlines the management of mobile, remote, and high turnover staff. Sirenum saves management time in scheduling shifts, monitoring staff, and facilitating financial processes including payroll.

whom we help

Staffing Agencies optimising operations
Transport mitigating risk
Construction preparing payroll
Retail simplifying scheduling
Manufacturing onboarding new hires
Logistics securing lone workers
Hospitality managing human resources
Home Care monitoring staff
and more!

Sirenum helps organisations save up to a third of their staff management budget

streamlining staff management

where we help

Onboarding

By integrating with industry-leading technologies, Sirenium Onboarding facilitates recruiting and documentation as you get your staff onboard, simplifying access to crucial information throughout the staff management lifecycle.

Analytics

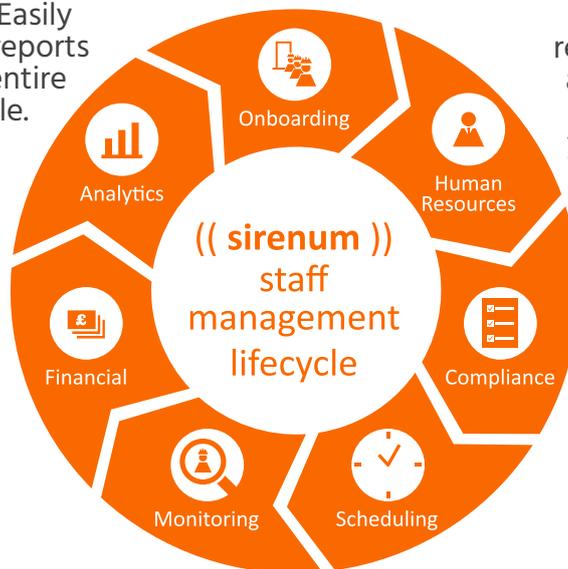

Sirenium Analytics is your one-stop shop for reports of all kinds. Easily create, schedule, and review reports and dashboards across the entire staff management lifecycle.

HR

Whether you use Sirenium Human Resources as your repository for key staff data or as an interface to your existing HR system, you know the data in your system is always accurate.

Financial

From payroll integration to invoice management to budgets based on shifts, teams and more, Sirenium Financial can take you from your employee schedule to payroll in just a few clicks.

Compliance

Sirenium has built a powerful system for managing employee certifications, licenses, training and permits in order to ensure a robust health and safety programme while also driving more efficient operations.

Monitoring

Sirenium Monitoring makes it easy to know where your staff is and when they start and finish their shifts. But for us, monitoring is so much more than just that.

Scheduling

With the industry's strongest and most flexible scheduling engine, Sirenium Scheduling helps companies of all shapes and sizes easily configure and manage rosters. Say goodbye to spreadsheets.
